

Schedule your onsite health screening.

It's time well spent.

An onsite health screening is a quick way to check in on a few key health measures. A trained technician will be on site to run a few tests like cholesterol, glucose and blood pressure. After just 20 minutes, you're done.

Can't make it?

See other options to complete a health screening at DesignedWellness.RedBrickHealth.com or ask your Wellness Champion.

*Only employees and spouses who are enrolled in an ACEC Life/Health Trust medical plan are eligible to earn rewards. View your rewards information by visiting the Rewards tab in your Designed Wellness account.
